RECOMMENDATION:

Staff and Zoning Commission (7-0) recommend approval, pending the plan amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the United Southwest Communities Plan and is currently designated as Low Density Residential in the future land use component of the plan. The requested "C-2" base zoning district is not consistent with the adopted land use designation. A master plan amendment has been submitted, requesting to change the land use designation to Community Commercial. Staff and Planning Commission recommend approval of the plan amendment request.

The Community Commercial land use designation should be located at nodes on arterial thoroughfares at major intersections or where an existing commercial area has been established. The subject property is located at the intersection of two collector streets.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

3. Suitability as Presently Zoned:

The "R-6" base zoning district is not necessarily appropriate for the subject property, the parent tract, or the surrounding undeveloped properties. Single-family residential development is not likely on the properties. The properties are better suited for institutional, multi-family residential, or small-scale office/commercial uses because of their proximity to the military base, at the periphery of two single-family residential subdivisions, bound by collector streets.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

Should the plan amendment request be approved, the request does not appear to conflict with any public policy objective.

6. Size of Tract:

The subject property is 1.528 acres in size, which reasonably accommodates the uses permitted in “C-2” and the typical parking requirements.

7. Other Factors:

The subject property is located within the Lackland Military Influence Area. In accordance with the signed Memorandum of Understanding, zoning staff provided the Military with a copy of the rezoning request for review and comment. The comments returned to staff indicated no concern related to the rezoning request; however, there is concern regarding development of the site as the surrounding areas to the south are prone to flooding. Storm water and drainage will be reviewed as part of the site development and building permit process.
