**ISSUE:**

None.

**ALTERNATIVES:**

Denial of the requested zoning change would result in the subject property retaining the present zoning district designation. The current “R-4” Residential Single-Family allows a dwelling (detached) with a minimum lot size of 4,000 square feet and a minimum lot width of 35 feet. Other uses permitted in this district are foster family home and public/private schools.

**FISCAL IMPACT:**

None.

**PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:**

The subject property is not located within a Regional Center.

The subject property is within a half (½)-mile from the Commerce-Houston Premium Transit Corridor and the Zarzamora Premium Transit Corridor.

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff and Zoning Commission (7-0) recommend Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the Guadalupe Westside Community Plan and is currently designated as “Mixed Use” in the future land use component of the plan. The requested “IDZ” base zoning district is consistent with the adopted land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area. There are currently apartments across the street, and commercial uses caddy-corner from the property.

**3. Suitability as Presently Zoned:**

The existing “R-4” base zoning district is appropriate for the surrounding area. There is single-family residential south of the property and some others to the west. The “R-4” base zoning district is not appropriate for the subject property, since the existing structure already consists of four units.

**4. Health, Safety and Welfare:**

Staff has not found any indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective since it is consistent with the adopted land use plan.

**6. Size of Tract:**

The subject property is 0.124 acres and is of sufficient size to accommodate the proposed development. The structure already exists on the property and is also of sufficient size to accommodate four units. There is a structure in the rear of the property that would be of sufficient size to accommodate a commercial use.

**7. Other Factors:**

Infill Development Zone (IDZ) provides flexible standards for developments. IDZ is to encourage and facilitate development on vacant, bypassed lands, or the redevelopment of underutilized buildings or structures, within existing built-up areas. IDZ may be approved as either a base zoning district or an overlay zoning district. Standards required in an IDZ district shall apply to either IDZ base zoning or the IDZ overlay district except where otherwise specifically stated. Typically IDZ gives flexibility to parking requirements, lots sizes, and setbacks.
