RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the United Southwest Community Plan and is currently designated as Regional Commercial in the future land use component of the plan. The requested “C-2” base zoning district is consistent with the current land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff has found no evidence of likely adverse impacts on surrounding properties.

3. Suitability as Presently Zoned:

The requested “C-2” will not have any negative effects on future development, but rather provide additional businesses to the area, and will also limit more intense development that would be allowed in the “C-3 zoning district. The site location is on a Major Thoroughfare and adjacent to Loop 410 Expressway. Finally the property is surrounded by similar commercial uses.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety or welfare.

5. Public Policy:

The request does not appear to conflict with any public policy objective.

6. Size of Tract:

The subject property is 3.055 acres in size, which accommodates the proposed development with adequate space for parking.

7. Other Factors:

None.
