Proposed: The proposed zoning district designation of "C-2" accommodates community commercial uses, with unlimited building size, and building height limitation of 25 feet. Examples of permitted uses: liquor store,

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (11-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Lone Star Community Plan and is currently designated as “High Density Mixed Use” in the land use component of the plan. The requested “C-2” base zoning district is consistent with the adopted land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.

3. Suitability as Presently Zoned:

The existing “I-1” General Industrial District is appropriate for the surrounding area. The proposed “C-2” Commercial District downzone is more appropriate and supports the neighborhood plan of phasing out of industrial uses.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The request does not appear to conflict with any public policy objective of the Lone Star Community Plan, which encourages the following:

LU-1: Establish performance standards for industrial uses. Phase out industrial uses that do not comply with performance standards with a combination of zoning changes and relocation assistance.

6. Size of Tract:

The 0.334 acre site is of sufficient size to accommodate the proposed commercial development.

7. Other Factors:

The applicant is requesting to rezone for commercial uses with a Conditional Use for Bar/Tavern.

The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.
