None. The applicant has paid the required zoning fees.

**RECOMMENDATION:**

Staff and Zoning Commission (7-0) recommend approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The property is located within the West/Southwest Sector Plan and is currently designated as Rural Estate Tier in the future land use component of the plan. The requested “O-1” base zoning district is consistent with the adopted land use designation. The Rural Estate Tier allows a range of very low-density residential uses, as well as small-scale service and retail uses meant to serve large, rural residential areas.

**2. Adverse Impacts on Neighboring Lands:**

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request and finds the requested zoning to be appropriate because of the subject property’s location with frontage on an arterial thoroughfare.

**3. Suitability as Presently Zoned:**

The “R-6” base zoning district is not entirely appropriate for the subject property. This zoning district is not recommended under the Rural Estate Tier of the West/Southwest Sector Plan. The subject property currently contains warehousing and is better suited for small-scale office/commercial uses.

Additionally, single-family residential uses are not encouraged with access from arterial thoroughfares because of safety issues that arise from vehicles backing into traffic when leaving the residential property. The UDC includes provisions limiting such access for residential lots that are less than 1 acre in size. The subject property has existing ingress/egress to Rogers Road, and residential development would not be prohibited on the site; but the UDC discourages such development for new subdivisions.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective.

**6. Size of Tract:**

The subject property is 0.46 acres in size, which reasonably accommodates the uses proposed medical clinic and the required parking.

**7. Other Factors:**

The “O-1” district requires parking be located behind the primary structure, but does allow a limited amount of parking in the front and side yards.
