DEPARTMENT: Planning Department

DEPARTMENT HEAD: Bridgett White, Director

COUNCIL DISTRICTS IMPACTED: Citywide

SUBJECT:

Briefing and Update on the SA Tomorrow Comprehensive Plan proposed land use categories following a series of community forums.

SUMMARY:

Briefing on amendments to Chapter 35, Unified Development Code, of the City Code of San Antonio, Texas, Section 35-420 (e) (5) **Comprehensive Land Use Categories**, and Section Sec. 35-A101. - **Definitions and Rules of Interpretation:** Comprehensive land use category. This briefing occurs following a series of community education forums.

BACKGROUND INFORMATION:

Future land use is important because it helps determine where people will live, work, and play in the City of San Antonio and is the basis for zoning and other land use and development decisions. The City of San Antonio has no single governing regulatory future land use palette, which has resulted in a lack of equity and fairness in several neighborhoods and communities throughout the City. The 16 adopted Unified Development Code land use categories are intended to be the designated comprehensive land use categories for neighborhood,

community, sector, perimeter plans and any other element of the comprehensive plan. However, collectively, there are already a total of 39 future land use categories within the adopted neighborhood and community plans. Many plans have land use categories that are inconsistent with each other and have variations in description, density and intensity allowances, development requirements, and permitted zoning districts.

The applicable development-related City boards and Commissions have been briefed and have considered these amendments. The Planning Commission's Technical Advisory Committee, Planning Commission, and Zoning Commission have been briefed and recommended approval. Further, the Planning Department briefed the council offices via a monthly chief-of-staff meeting to receive input of the proposed classification updates.

The adoption process included:

1. Planning Commission Technical Advisory Committee Briefing: March 2, 2018
2. Planning Commission Briefing: March 28, 2018
3. Planning Commission Technical Advisory Committee Consideration: May 11, 2018 - Recommended Approval
4. Zoning Commission Briefing: May 15, 2018
5. Planning Commission Consideration: May 23, 2018 - Recommended Approval
6. Zoning Commission Consideration: June 5, 2018 - Recommended Approval
7. City Council Consideration: June 21, 2018 - Requested staff conduct additional community education forums and return to the Comprehensive Plan Committee
8. Comprehensive Plan Committee: August 15, 2018
9. City Council Consideration: August 30, 2018 (tentative)

ISSUE:

As part of the implementation of the SA Tomorrow Comprehensive Plan over the next five years, thirteen (13) Regional Center and seventeen (17) Community Plans will be initiated throughout the City, with the goal of having a comprehensive land use map for the entire City of San Antonio. To absorb and leverage the City's projected growth successfully, and to provide strategic approaches for transitions between incompatible land uses and densities, coordinated land use plans are needed for each sub-area of the City. In order to develop land use plans that have uniform standards and vernacular for residents, stakeholders, industry representatives, and City departments, the Planning Department conducted a series of focus group meetings to gain feedback to improve the adopted land use categories. Those groups were:

1. Community groups (including not-for-profit organizations);
2. Neighborhood coalitions;
3. External governmental stakeholders;
4. Development industry representatives; and,
5. Affected City departments

Additionally, the Planning Department met with the City Council offices; and launched a project-specific webpage. The department also conducted five community meetings to present the new categories and to get additional community feedback. These meetings included:

1. January 30, 2018 - Henry B. Gonzalez Convention Center
2. July 26, 2018 - Roosevelt Park Clubhouse
3. July 28, 2018 - Southwest Service Center Assembly
4. July 31, 2018 - Stinson Airport
5. August 2, 2018 - Igo Library

The proposed land use category updates/revisions include:

1. Expansion of the Mixed-Use land use category into five discrete categories to allow more flexibility and varying intensities of mixed-use development.
2. Addition of a City/State/Federal Government category, which will replace Public/Institutional and is intended for properties owned and operated by municipal, state, or federal agencies.
3. Replacement of the Office, Business/office park, and Very high density residential land use categories. These categories are proposed to be replaced with new categories that better address the desired types of development as recommended by the Comprehensive Plan.
 - a. The exclusive Office category is redundant; said uses would continue to be permitted in commercial and mixed-use categories.
 - b. Update to the High Density Residential category includes additional flexibility in the recommended density (up to 50 d/u per acre). Higher densities would be permitted in the Regional Mixed-Use category to ensure that residents of dense residential developments have access to necessary goods and services within walking distance.
 - c. Business/office Park would be replaced with Business/Innovation Mixed-Use and would include live/work housing options.
4. The balance of land use category revisions include minor updates to the description or the addition, or removal, of permitted zoning districts.

The table below highlights the proposed changes to the land use categories:

| Existing UDC Land Use Categories | PROPOSED UDC Land Use Categories |
|---|---|
| Low Density Residential Estate | Residential Estate |
| Low Density Residential | Low Density Residential |
| | Urban Low Density Residential |
| Medium Density Residential | Medium Density Residential |
| High Density Residential | High Density Residential |
| Very high density residential | |
| Office | |
| Neighborhood Commercial | Neighborhood Commercial |
| Community Commercial | Community Commercial |
| Regional Commercial | Regional Commercial |
| Mixed-use | Neighborhood Mixed-Use |
| | Urban Mixed-Use |
| | Regional Mixed-Use |
| | Employment/Flex Mixed-Use |
| Business/ office park | Business/Innovation Mixed-Use |
| Light Industrial | Light Industrial |
| Heavy Industrial | Heavy Industrial |
| Agricultural | Agricultural |
| Public/Institutional | City/State/Federal Government |
| Parks/Open Space | Parks/Open Space |

ALTERNATIVES:

This is a briefing to the Comprehensive Plan Committee on the proposed land use category updates.

FISCAL IMPACT:

There is no fiscal impact related to this consideration.

RECOMMENDATION:

Staff recommends that the Comprehensive Plan Committee forward the SA Tomorrow Comprehensive Plan proposed Unified Development Code Land Use Categories to the full City Council for consideration of approval.
