All surrounding properties carry the "ERZD" Edwards Recharge Zone District. The "ERZD" does restrict permitted uses, due to the environmentally sensitive nature of the recharge zone. **RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff and Zoning Commission (10-0) recommend Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The property is located within the North Sector Plan, and is currently designated as Suburban Tier in the future land use component of the plan. The requested "O-1" Office base zoning district is consistent with the future land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The area is developed with other office uses to the northeast and the south.

**3. Suitability as Presently Zoned:**

The current "R-6" base zoning district is appropriate for the subject property's location. The requested zoning district of "O-1" is also appropriate for the subject property's location.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The rezoning request does not appear to conflict with land use goals and strategies of the of the North Sector Plan that encourages development that is visually and functionally compatible with its surrounding neighborhoods by maintaining a massing and density of development that is compatible with adjacent developed neighborhoods.

**6. Size of Tract:**

The subject property totals 0.3748 acres in size, which should reasonably accommodate the uses permitted in “O-1” Office District.

**7. Other Factors:**

The subject property is located within the Camp Bullis Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding between Fort Sam and the City of San Antonio, the Military did not review the request because the property is less than 10 acres in size and does not directly abut the installation.

The SAWS report has classified the subject property as a Category 2. SAWS staff recommends approval of the zoning request with an impervious cover of 65%.
