Project Background

#### Procurement of Services

This Project was selected to utilize Job Order Contracting (JOC), an alternative Project delivery method, through which ten contractors were approved through Ordinance 2015-01-15-0013 by City Council on January 15, 2015. The use of the JOC delivery method has provided the City with on-call construction, renovation and maintenance services for City buildings and facilities. Assignment of JOC contractor to a specific job is based on the contractor's current workload, overall capacity, and familiarity with a specific facility, cost, and expertise in completing specific task and/or managing a specific trade needed to carry out the job. Of the ten contractors, Jamail & Smith Construction, LP was selected to submit an estimate and project schedule for this Project.

Jamail & Smith is a small, minority-owned business that has committed to 23% Minority/Women Business Enterprise and 3% African-American Business subcontractor participation.

A Discretionary Contracts Disclosure Form, as required by the City's Ethics Ordinance for all projects where subjective criteria are used to select the contractor or consultant rather than by low bid, is attached.
