**Comprehensive Land Use Categories**

**Land Use Category:** “Low Density Residential”

**Description of Land Use Category:** Low Density Residential Development includes Single Family Residential Development on individual lots. This form of development should be located away from major arterials, and can include certain non-residential uses such as schools, places of worship, and parks that are centrally located for convenient neighborhood access.

**Permitted Zoning Districts:** “R-4”, “R-5”, “R-6”, “NP-8”, “NP-10”, “NP-15”, “R-20”, and “RE”

**Land Use Category:** “Regional Commercial”

**Description of Land Use Category:** Regional Commercial provides for offices, professional services, and retail uses that draw on the customer base of a region. Examples of uses include “big box” retail and retail

“power centers”, shopping malls, movie theaters, and medical or office complexes that are mid to high rise. Regional Commercial uses are typically located at nodes formed by highways and major arterials, or two major arterials, and are usually 20 acres or greater in size. Regional Commercial uses can serve as an appropriate buffer between an arterial or highway, and lower intensity commercial or medium to high density residential uses.

**Permitted Zoning Districts:** “NC”, “O-1”, “O-2”, “C-1”, “C-2”, and “C-3”

**RECOMMENDATION:**

Staff Analysis & Recommendation: Staff recommends Denial.

The proposed land use amendment from “Low Density Residential” to “Regional Commercial” is requested in order to rezone the property from “R-6” Residential Single-Family District to “C-3NA” General Commercial

Nonalcoholic Sales District. The proposed “Regional Commercial” is not consistent with the goals and objectives of the I-10 East Corridor Perimeter Plan. The plan emphasizes preserving existing single-family developments, while locating most commercial uses at nodes, or along highly traversed corridors furthermore, the plan stipulates commercial uses to be segregated by intensity of use, with “Regional Commercial” uses being located primarily at the intersection of highways and arterials. In addition, there are no “Regional Commercial” land uses within the vicinity of the subject properties.

**ALTERNATIVES:**

1. Recommend Approval of the proposed amendment to the I-10 East Corridor Perimeter Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.
