**ISSUE:**

**Plan Adoption Date:** September 30, 2004

**Update History:** June 18, 2009

**Plan Goal:** Improve the quality, appearance, and variety of existing and new housing for people of all ages while preserving the character of the neighborhoods.

**Comprehensive Land Use Categories**

**Low Density Residential:** Low-density residential uses include single-family houses on individual lots with/without attached or detached accessory dwelling units, such as a granny flats, garage apartments, and “echo” (elder cottage housing opportunity) units. Only one accessory dwelling is permitted per lot and should reflect the appearance of the main structure. All off-street parking and vehicle use areas adjacent to residential uses require buffer landscaping, and lighting and signage controls. Certain non-residential activities such as schools, places of worship, and parks are appropriate within these areas and should be centrally located to provide easy access. This form of development should be oriented toward the center of the neighborhood and located away from major arterials.

**Example Zoning Districts:**

R-4, R-5, R-6, R-20

**Comprehensive Land Use Categories**

**Medium Density Residential:** Medium-density residential uses include the uses in the Low-Density Residential category, as well as duplexes, triplexes, fourplexes, townhomes, row houses and zero lot line configurations. All off-street parking and vehicle use areas adjacent to residential uses require buffer landscaping, and lighting and signage controls. Certain nonresidential activities such as schools, places of

worship, and parks are appropriate within these areas and should be centrally located to provide easy access. This form of development should be located along residential roads or collector streets and can serve as a buffer between Low-density residential and more intense land uses such as commercial structures.

**Example Zoning Districts:**

R-4, R-5, R-6, RM-4 RM-5, RM-6

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval.

The applicant requests this Plan Amendment and associated zoning change to utilize an existing second structure as a single-family residence on the subject property. The subject property is a corner lot surrounded by other residential properties located along a residential road that will act as a buffer to the surrounding “Low Density Residential” land uses. The proposed amendment to “Medium Density Residential” land use will not

significantly alter the land use pattern or character of the immediate area as the proposed change supports the Nogalitos/South Zarzamora Community Plan that improves the quality, appearance, and variety of existing and new housing for people of all ages while preserving the character of the neighborhoods. The proposed amendment to “Medium Density Residential” is an appropriate fit that supports the accommodation of growth within this area.

**ALTERNATIVES:**

1. Recommend denial of the proposed amendment to the Nogalitos/South Zarzamora Community Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.
