SUMMARY:

This Ordinance would extend the line-of-duty (LOD) leave for Fire Engineer Van Jones. Approval of this Ordinance is only within the authority of City Council. The Local Government Code, Chapter 143.073, states that after the one-year initial period of leave, the municipality's governing body may extend the line of duty illness or injury leave at full or reduced pay. This will allow the Department to consider this period line of duty leave.

BACKGROUND INFORMATION:

Fire Engineer Jones injured his left hip and lower back while transporting a patient on a stretcher through wet terrain on November 2, 2010. He was diagnosed with a herniated disc at L4-L5 and a bulging disc at L5-L6. Fire Engineer Jones initially underwent extensive physical therapy and epidural steroid injections to his lower back. He then completed work hardening and a functional capacity examination. He was on Line of Duty leave from November 3, 2010 until March 9, 2011. After that time, Fire Engineer Jones returned to full duty work on March 10, 2011 until April 12, 2011. He continued to suffer pain from the injury and as a result, his physician took him off of full duty. He returned to Line of Duty leave on April 13, 2011 until December 5, 2011. He began using his own leave on December 6, 2011 to September 30, 2012, and from April 15, 2013 to June 9, 2013. Fire Engineer Jones returned to full duty on June 10, 2013.

This extension will restore 2704 hours, or 100 shifts, of his accrued leave and 304 hours of sick leave while on a 40 hour work schedule.
