Property Details

Topography: The subject properties have various topographies with some most southern properties within a floodplain.

ISSUE:

City Council approved a Resolution to initiate land use and zoning changes to properties located within the World Heritage Buffer Zone on November 3, 2016. Under the leadership of Councilmember Rebecca Viagran and with community input, a work plan for the World Heritage Buffer Area that includes tasks and deliverables to address infrastructure, wayfinding, transportation, economic development, beautification, marketing and outreach and future land use has been developed. A critical component of the World Heritage work plan has been to update existing land use plans and zoning designations. The land use amendments approved by City Council in 2016 were the first step in the process.

City staff then conducted an inventory and land use analysis of all properties located within one of the 11 land use amendment areas approved by City Council in 2016, and/or located within the Mission Protection Overlay District (MPOD), the River Improvement Overlay District (RIO), or along major corridors (Mission Rd, Roosevelt Ave, and Presa St).

If the current zoning in the analyzed areas was not in alignment with the amendments or goals of the existing overlays and land use plans, then a rezoning recommendation was made.

City staff conducted three major community meetings that were held on December 5, 2017; January 23, 2018; and March 6, 2018 within the community. Several open house sessions were also held at Mission Library, Stinson Airport and Development Services Department to provide information, gather community input and address property owner concerns.

ALTERNATIVES:

Denial of the requested zoning changes would result in the subject properties retaining the present zoning district designation.

FISCAL IMPACT:

None.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The purpose of the zoning recommendations is to align zoning with current land use designations within the World Heritage Buffer Zone (WHBZ). In 2016, the San Antonio City Council approved 11 land use amendments in four community and sector plans - Lone Star, South Central, Stinson Airport, and Heritage South. These amendments, the direct result of community input and feedback, reflect development goals for the areas surrounding the San Antonio Missions. Additionally, properties located within the Mission Protection Overlay District (MPOD), the River Improvement Overlay District (RIO), and along major corridors (Mission Rd, Roosevelt Ave, and Presa St) were reviewed to determine if current zoning was in alignment with the goals of these existing community and corridor plans, future land use, and feedback from the community.

2. Adverse Impacts on Neighboring Lands:

Staff has found no evidence of likely adverse impacts on surrounding properties. Properties proposed for a zoning designation that does not allow the current use of the property will be eligible for registration as a legal nonconforming use. A nonconforming use is a use of a property that was allowed under the zoning regulations at the time the use was established but which, because of subsequent changes in those regulations, is no longer a permitted use. Sometimes this is referred to as “grandfathering.”

3. Suitability as Presently Zoned:

City staff has performed an analysis to determine opportunities to bring zoning into alignment with the goals of the land use plans, Mission Protection Overlay District (MPOD), the River Improvement Overlay District (RIO) and Metropolitan Corridor Plans along Roosevelt and S. Presa St.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed zoning changes are supported and directed by Resolution 2016-11-03-0033R and are in alignment with the goals of the land use plans, Mission Protection Overlay District (MPOD), the River Improvement Overlay District (RIO) and Metropolitan Corridor Plans along Roosevelt and S. Presa St.

6. Size of Tract:

The subject area is approximately 30 acres.

7. Other Factors:

None.
