**PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:**

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff and Zoning Commission (8-3) recommend Denial. Staff recommends an Alternate Recommendation of “R-6 CD” with a Conditional Use for two (2) dwelling units.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the Near Northwest Community Plan and is currently designated as “Medium Density Residential” in the land use component of the plan. The requested “RM-4” base zoning district is consistent with the adopted land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff has found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The requested “RM-4” allows for development of fourplexes, which is not consistent with the established development pattern of the surrounding area.

**3. Suitability as Presently Zoned:**

The current “R-6” base zoning is consistent with the surrounding properties to the east, west and north of the subject property. It is also consistent with the Near Northwest Community Plan objective to encourage new housing development that is compatible with the community’s character. The current community’s character is a maximum of two (2) dwelling units per lot. Therefore, the alternate recommendation of “R-6 CD” with a Conditional Use for two (2) dwelling units is more appropriate for this area. The requested “RM-4” which

would introduce excessive density which is not currently established in the area, by allowing four (4) dwelling units.

**4. Health, Safety and Welfare:**

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The request does appear to conflict with any public policy objective of the Near Northwest Community Plan, which encourages the following:

**Land Use Plan** - If a structure was built as a single-family use and currently is used as a multi-family structure, the neighborhoods' highest preference is for the house to return to a single-family use.

**Objective 3.4: Housing Development**

Encourage new housing development that is compatible with the community's character.

**3.4.1** - Encourage new developments to reflect the character of the surrounding areas.

**6. Size of Tract:**

The 0.201 acre site is of sufficient size to accommodate the proposed fourplex development.

**7. Other Factors:**

The applicant is requesting to rezone in order to develop a fourplex. Staff's recommendation of "R-6 CD" with a Conditional Use for two (2) dwelling units is a more appropriate alternative for the property and maintains community density and character.
