Overlay and Special District Information:

"AHOD"

All surrounding properties carry the "AHOD" Airport Hazard Overlay District, due to their proximity to an airport or approach path. The "AHOD" does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

"MLOD-2"

All surrounding properties carry the "MLOD-2" Military Lighting Overlay District, due to their proximity to Lackland Air Force Base. The "MLOD-2" does not restrict permitted uses, but does regulate outdoor lighting

in an effort to minimize night-time light pollution and its effects on operations at the military installation.

Transportation

Thoroughfare: South Zarzamora

Existing Character: Enhanced Secondary Arterial

Proposed Changes: None

Public Transit: VIA bus routes are within walking distance of the subject property.

Routes Served: 672

Traffic Impact: Zarzamora is identified on the City's Major Thoroughfare Plan as (Enhanced Secondary Arterial 120' - 142' ROW). ROW Dedication may be required, and improvement may be required. Arterials require min 48' pavement - 24' from centerline. Per UCD Table 506-3, note 5 bike facilities are required on all arterials along with sidewalks.

Parking Information: The minimum parking requirement for multi-family use is 1.5 spaces per unit.

ISSUE:

None.

ALTERNATIVES:

Current: The present zoning district designation of "MPCD" Master Planned Community District was established to encourage the development of areas of mixed uses that are internally compatible in an effort to achieve well designed development and provide a more efficient arrangement of land uses, building and circulation systems.

Proposed: The proposed "MF-33" Multi-Family District permit for a multi-family use with a maximum density of up to thirty-three (33) units per acre, depending on unit size. An "MF-33" district designation may be applied to a use in a multi-family residential area located near supporting transportation and commercial facilities in a centrally located area or in an area for which medium density multi-family use is desired.

FISCAL IMPACT:

None.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

The subject property is within the Texas A&M - San Antonio Regional Center and located within the Premium Transit Corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Heritage South Sector Plan and is currently designated as "Mixed Use Center" and "General Urban Tier" in the future land use component of the plan. The requested "MF-33" base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed “MF-33” Multi-Family District is compatible with the surrounding “C-2” Commercial and “FBZD” Form Based Zoning District. Additionally, the proposed rezoning results in less intensity and traffic due to the downzoning of approximately 3 acres of commercial.

3. Suitability as Presently Zoned:

The current “MPCD” Master Planned Community District is an appropriate zoning for the property and surrounding area. The proposed “MF-33” Multi-Family District will introduce multi-family use on South Zarzamora, South of Loop 410, which is appropriate in the Premium Transit Corridor.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the Heritage South Sector Plan:

Housing Goal 2: A variety of housing types (single-family detached, single-family attached, multi-family, as well as ownership and rental opportunities) is available at a variety of price and rent levels.

Housing Goal 5: High-density housing choices are available within the city’s 13 regional centers and along its arterial and transit corridors.

Relevant Sector Plan goals/policies:

Goal HOU-1: An array of housing choices throughout the area with an appropriate mix of densities and housing types.

Strategy Hou 1-1: Encourage a mix of housing types, including multi-family homes, custom homes, garden homes and/or “life cycle” housing in higher-density areas and strategic nodes.

Hou 1.2 Encourage higher density housing at strategic nodes.

6. Size of Tract:

The subject property is 10.69 acres, which could reasonably accommodate multi-family use.

7. Other Factors:

The subject property is located within the Lackland AFB Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding, JBSA was notified of the proposed request. The Military indicated that there are no objections to the request.

In accordance with the San Antonio City Unified Development Code, the Office of Historic Preservation reviews all demolition applications for any property located within the city limits of San Antonio. Approval of a zoning change does not imply approval of or take the place of such demolition review as directed by the UDC. To date, no application for demolition at this address to accommodate the proposed use has been submitted for review to the Office of Historic Preservation.

Applicant is proposing multi-family development, not to exceed 33 units per acre.
