Comprehensive Plan

Comprehensive Plan Component: Greater Dellview Community Plan

Plan Adoption Date: September 29, 2005

Plan Goals:

- Goal 2: Neighborhood Commercial Revitalization
Promote the growth and development of local businesses and create attractive and viable commercial environments that draw new customers and diverse businesses
- Objective 2.1: Commercial Corridors Assessment: Develop data to inform the economic development process and prioritize critical needs
- Objective 2.4: Small Business Development: Foster an environment that promotes, encourages and supports small business development

Comprehensive Land Use Categories

Land Use Category: Low Density Residential

Description of Land Use Category: This category allows for low density, single-family residential homes on individual lots. Growth under this category of land use should be oriented away from rights of way with high traffic frequencies, centralized to the core of neighborhoods, and ideally be within walking distance of elementary schools, and neighborhood commercial uses. Additionally, the community recognizes and appreciates varying degrees of density that currently exist within predominantly single-family districts. However, if there are existing multi-family uses that were built as single family structures, the preference is that the structure return to a low density residential use whenever feasible. Certain small to medium scale lower impact community oriented uses such as churches, parks, and open space may also be encouraged in this category.

Permitted Zoning Districts: R-4, R-6, R-5, R-20

Land Use Category: Neighborhood Commercial

Description of Land Use Category: This category provides for smaller intensity commercial uses such as small-scale retail or offices, professional services, convenience retail, and shopfront retail that serves a market equivalent to a neighborhood. Neighborhood commercial uses should be located at the intersection of residential streets and arterials, and within walking distance of neighborhood residential areas, or along arterials where already established. Examples of neighborhood commercial uses include flower shops, small restaurants, lawyer’s offices, coffee shops, hairstylist or barbers shops, bookstores, copy service, dry cleaning, or convenience stores without gasoline. Refuse containers should be found behind the principal structure, and should be screened from adjacent residential uses. Appropriate buffering such as a buffer yard and/or landscaping should form a screen between this category and residential uses. Whenever possible, parking should be located in the back of the structure, monument signage is encouraged, and lighting should be directed onto the site, away from adjoining properties.

Permitted Zoning Districts: NC, C-2P, C-1, O-1

Proximity to Regional Center/Premium Transit Corridor

The property is located not located within a Regional Center. The property is located within a half mile of a

Premium Transit Corridor.

ANALYSIS AND RECOMMENDATION: Staff recommends Approval.

The proposed “Neighborhood Commercial” that extends off of Blanco Road is consistent with other blocks along the corridor. “Neighborhood Commercial” would allow for Commercial buildings that would allow the applicant to conduct their business indoors. This designation in the plan would only allow for “C-1” and “NC” zoning districts, which are of a lighter intensity than many businesses in the area.

ALTERNATIVES:

1. Recommend Denial of the proposed amendment to the Greater Dellview Community Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date
