RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (10-0) recommend Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the West/Southwest Sector Plan, and is currently designated as General Urban Tier in the future land use component of the plan. The requested “MF-33” Multi-Family base zoning district is not consistent with the future land use designation. The applicant has requested a plan amendment to change the land use from Suburban Tier to General Urban Tier. Staff and Planning Commission recommend Approval.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The applicant requests the zone change in order to construct apartments with 230 units.

3. Suitability as Presently Zoned:

The current “R-6” base zoning district is appropriate for the subject property’s location; however, the surrounding area consists of multi-family and commercial uses and the proposed “MF-33” will further act as a buffer from between commercial and residential uses.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective.

6. Size of Tract:

The subject property totals 7.668 acres in size, which will reasonably accommodate the uses permitted in “MF-33” Multi-Family District.

7. Other Factors:

None.
