RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (10-0) recommend Approval, pending Plan Amendment

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the Heritage South Sector Plan, and is currently designated as General Urban Tier and Agribusiness/RIMSE Tier in the future land use component of the plan. The requested "R-5" Residential Single-Family base zoning district is not consistent with the future land use designation. The applicant has requested a plan amendment to change the land use to Suburban Tier. Staff and Planning Commission recommend approval.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The request is to allow for detached single-family units at a density of 9 units per acre.

3. Suitability as Presently Zoned:

The current "FBZD" Form Base Zone District is appropriate for the subject property's location, but because the surrounding property is primarily single family residential, a smaller scale development will better complement the current pattern of development.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective.

6. Size of Tract:

The subject property totals 88.719 acres in size, which will accommodate the uses permitted in "R-5" Residential Single-Family District.

7. Other Factors:

None.
