**1. Consistency:**

The subject property is not located within a Neighborhood, Community, or Sector Plan therefore a finding of consistency is based on existing and surrounding zoning and uses.

**2. Adverse Impacts on Neighboring Lands:**

Staff has not found evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established residential single-family development pattern of the surrounding area.

**3. Suitability as Presently Zoned:**

The existing "R-6" base zoning district is appropriate for the surrounding area. The requested "R-4" would

also be appropriate for the surrounding area. The proposed “R-4” Residential Single-family simply allows for a smaller minimum lot size of 4,000 square feet.

**4. Health, Safety and Welfare:**

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective.

**Analysis and Visioning-**

- Focus on assessing the existing conditions, challenges, and opportunities for the Westside Community Area.
- The Planning Team and community members will also provide direction on visioning and goal setting for the Westside area.
- The analysis and refinement of existing conditions will help to ensure that the vision and goals for the Westside area are grounded in the proper context

**6. Size of Tract:**

The 0.2399 acre site is of sufficient size to accommodate the proposed residential development.

**7. Other Factors:**

The applicant is requesting to rezone from “R-6” to “R-4”, in order to establish two lots. To reconfigure one single-family dwelling facing North West 26<sup>th</sup> Street and the interior lot have the other dwelling face Lombrano Street.
