This project was selected to utilize the Job Order Contracting (JOC), an alternative Project delivery method, through which ten contractors were approved through Ordinance 2015-01-15-0013 by City Council on January 15, 2015. The use of the JOC delivery method has provided the City with on-call construction, renovation and maintenance services for City buildings and facilities. Assignment of JOC contractor to a specific job is based on the contractor's current workload, overall capacity, familiarity with a specific facility, expertise in completing specific task(s) and/or managing a specific trade needed to carry out the job. Of the ten (10) contractors, Jamail and Smith Construction, was selected to submit an estimate and project schedule for this Project

The Job Order Contract was awarded in compliance with the Small Business Economic Development Advocacy (SBEDA) Program, which requires contracts be reviewed by a Goal Setting Committee to establish a requirement and/or incentive unique to the particular contract in an effort to maximize the amount of small, minority, and women-owned business participation on the contract. The Goal Setting Committee set a 23% Minority/Women Business Enterprise (M/WBE) subcontracting goal and a 3% African American Business Enterprise (AABE) subcontracting goal. Jamail and Smith Construction, has committed to meeting the assigned Job Order Contract subcontractor goals on a quarterly basis.

Discretionary Contracts Disclosure Form, as required by the City's Ethics Ordinance for all Projects, where subjective criteria are used to select the contractor or consultant rather than by low bid, is attached.
