Plan Goals: Goal 3- Improve the quality of life and safety of residents of the IH 10 East Perimeter Planning area by addressing incompatible land uses.

Comprehensive Land Use Categories

Land Use Category: Parks/Open Space

Description of Land Use Category: Parks/Open Space includes large, or linear, unimproved land where conservation is promoted and development is not encouraged due to presence of topographic constraints or institutional uses on the site. Parks /Open Space include flood plains, utility corridors, public and private land uses that encourage outdoor passive or active recreation. Examples include City pocket, regional, or linear parks, as well as private parks associated with subdivisions and neighborhood associations.

Permitted Zoning Districts:

Land Use Category: Urban Living

Description of Land Use Category: Urban Living provides for compact neighborhoods and centralized commercial areas that promote a sense of community and are pedestrian and transit friendly. Centralized commercial centers in this category include the Mixed

Use Center, the Transit Oriented Development (TOD), and the Town Center. Adjacent to these mixed use commercial areas are less dense Neighborhood Centers, which have a nucleus, or a focal point. Urban Living also provides for form based development, which emphasizes urban design in the form of regional centers and village development patterns. Mixed Use Centers should be a concentrated blend of residential, retail, service,

office, entertainment, leisure, and other related uses at increased densities, where people can enjoy a wide range of fulfilling experiences in one place. Mixed Use Centers are typically located at the intersection of a collector and arterial street or two arterial streets.

Transit Oriented Development includes residential and commercial uses that rely on transit, centralized parking, pedestrian linkages, and an option for bus rapid transit or light rail service. A Town Center provides a central civic function with mixed uses incorporated into the peripheral development. Neighborhood Centers have an identifiable nucleus or focal point and edges. Shopping, recreation and services would be accessible by foot or transit. Neighborhood Centers would have a mix of residential uses and an interconnected street network with bicycle and pedestrian facilities. Civic buildings and civic spaces are given prominent sites, and schools and parks are located within walking distance. The edge of the neighborhood is bound by a parkway or boulevard.

Permitted Zoning Districts: TND, TOD, MXD, UD, & FBZD

Land Use Category: Community Commercial

Description of Land Use Category: Community Commercial provides for offices, professional services, and retail uses of moderate intensity and impact. Examples of uses include a grocery store, a medical office, music store, shoe store, nursery, or mailing services store. Community Commercial should be located along arterials, preferably at intersections with other arterials or collectors. Community Commercial can serve as an appropriate buffer between low, medium, and high density residential uses, or between an arterial and low density residential.

Permitted Zoning Districts: NC, O-1, C-1, & C-2

RECOMMENDATION:

Staff Analysis & Recommendation: Staff and Planning Commission (6-0) recommend Approval.

The I-10 East Corridor Perimeter Plan has identified this area as having strong growth for potential development. The subject property fronts IH-10 which would serve as an appropriate commercial corridor in the near future. "C-2" Commercial District uses would provide services, and economic development to the area. Allowing the change to "Community Commercial", would align the land use to the portion of the property that is currently zoned "C-2", in addition to eliminating the Parks/Open Space which should not be designated on privately owned property.

ALTERNATIVES:

1. Recommend Denial of the proposed amendment to the IH-1- East Corridor Perimeter Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.
