There are multiple highways and arterial roads in the subject area.

Public Transit: Proposed overlay districts have no impact on transit.

Traffic Impact: The proposed overlay districts have no impact on traffic.

Parking Information: The proposed overlay districts have no impact on parking.

ISSUE:

The Military's Mission in San Antonio contributes billions of dollars to the Texas economy and directly or indirectly supports 283,000 Texan jobs. In order to protect the Military's Mission in San Antonio, and preserve its positive impact on the economy and our citizens, the City must take action to pass regulation controls around our Military Bases to ensure their continued viability. Martindale Army Air Field, located near the intersection of Loop 410 and IH 10 on the far east side of San Antonio provides a base of operations for helicopter training, including night time training.

In order to ensure the viability of Martindale's mission, and also to mitigate high noise from this training to the benefit of Martindale's neighbors, lighting and sound attenuation measures are proposed.

As such, it is crucial that the City of San Antonio move forward to regulate lighting and sound attenuation in the areas around Martindale.

Existing lighting fixtures that are in-place legally (appropriate permits obtained) would be considered legally non-conforming (grandfathered) and no action would be required by the property owner. However, upon such time that the fixture requires replacement, the permitting process would require that the replacement fixture be compliant with the overlay district.

All new construction within the sound attenuation area will be required to meet the standards set forth during the permitting process.

Development Services Department Staff conducted two informational meetings to inform property owners, neighborhood associations, community organizations and stakeholders of the proposed zoning change at the following locations: 1) Legacy Middle School on October 17th and 2) Hopkins Elementary School on October 25th. Additionally, Staff coordinated with military officials on the rezoning process.

ALTERNATIVES:

Denial of the requested zoning change would result in the subject properties retaining the present zoning district designation.

FISCAL IMPACT:

None.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

The Fort Sam Houston Special Purpose Center is located just to the north and west of the Martindale Army Air Field. The Brooks Activity Center is located to the south of the Martindale Air Field.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

Proposed zoning overlay district does not require land use consistency since it is not changing the base zoning districts of the subject properties.

2. Adverse Impacts on Neighboring Lands:

Staff has found no evidence of likely adverse impact on surrounding properties.

3. Suitability as Presently Zoned:

Proposed zoning overlay district is consistent with the City's SA Tomorrow Sustainability Plan.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed zoning overlay district are directed by the City Ordinance 2018-02-08-0079 and supported by SA Tomorrow Sustainability Plan.

6. Size of Tract:

Approximately 32,344.

7. Other Factors:

None.
