BACKGROUND INFORMATION:

Submitted for City Council consideration and action is the attached tabulation of seven bids to provide thirty-two replacements and three additional light duty vehicles. This purchase includes twenty-six sedans, one mini-van, seven one-ton trucks of varying configurations, and one flatbed truck.

These vehicles will be utilized by Building & Equipment Services, City Center Development & Operations, Development Services, Fire, Health, Information Technology Services, Police, Public Works, and Solid Waste Management departments. ISSUE:

These contracts will provide thirty-five light duty vehicles that are used for daily operations across nine departments. Thirty-two vehicles are replacements of current vehicles, and three vehicles will be additions to the City fleet. This purchase includes twenty-six sedans, one mini-van, seven one-ton trucks of varying configurations, and one flatbed truck. The replacement of these units is consistent with the City's Equipment Replacement and Renewal Fund (ERRF) program.

Vehicles are covered at minimum of three year or 36,000 miles warranty. The warranty will start on the day each unit is placed in service.

The life expectancy for one-ton trucks is 96 months, or 100,000 miles. The life expectancy for sedans, mini-van, and flatbed truck is 120 months, or 100,000 miles.

The Small Business Economic Development Advocacy (SBEDA) Ordinance requirements were waived due to the lack of small, minority, and/or women businesses available to provide these goods and services.

The Veteran-Owned Business Program does not apply to good/supplies contracts, so no preference was applied to this contract.

ALTERNATIVES:

The current light duty vehicles scheduled for replacement have met or will meet their age and or mileage

requirement cycles before they are replaced. The replacement date is considered the optimum time for replacement in that delay of the acquisition could result in the vehicles incurring higher maintenance cost as a result of age or high mileage. This could impact the City's ability to provide essential services to the residents of San Antonio.
