ISSUE:

None.

ALTERNATIVES:

A denial of the request will result in the subject property retaining the current base zoning district. Single-family dwelling (detached) with a minimum lot size of 6,000 square feet and a minimum lot width of 50 feet, foster family home, public and private schools are allowed within the “R-6” district.

FISCAL IMPACT:

None.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

The subject property is within the Midtown Regional Center, but not within a Premium Transit Corridor.

Staff Analysis and Recommendation: Staff recommends Denial, with an alternate recommendation of “R-3” Residential Single-Family. The Zoning Commission recommendation is forwarded as a Denial, due to lack of a motion.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the Tobin Hill Neighborhood Plan, and is currently designated as “Low Density Residential” in the future land use component of the plan. The requested “IDZ” Infill Development base zoning district is not consistent with the future land use designation. The applicant has requested a Plan Amendment to change the future land use from “Low Density Residential” to “Low Density Mixed Use”. Staff recommends Denial. Planning Commission recommends Approval.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The applicant proposes to put up to five (5) detached townhomes on the property. The location of the property at the end of the block surrounded by “Low Density Residential” land uses and “R-6” Residential Single-Family zoning is appropriate for the area.

Staff recommends that the applicant rezone to “R-3” Residential Single-Family, with replatted 3,000 square foot lots for a maximum of four (4) units, which would not require a Plan Amendment.

3. Suitability as Presently Zoned:

The current “R-6” base zoning district is appropriate for the subject property’s location. “IDZ” is not consistent with the existing zoning pattern and introduces unnecessary density to an existing single-family residential

neighborhood.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective.

The applicant's request meets the Master Plan's Policy for Economic Development - Goal 4, because it targets an area within Loop 410 and the southern sector.

The applicant's request the Master Plan's Policy for Neighborhoods - Policy 1d, because it promotes conversion or adaptive reuse of vacant or underutilized commercial buildings to provide affordable infill housing.

6. Size of Tract:

The subject property totals 0.2831 acres in size, which reasonably accommodates the uses permitted in "IDZ" Infill Development Zone District.

7. Other Factors:

Infill Development Zone (IDZ) provides flexible standards for developments. IDZ is to encourage and facilitate development on vacant, bypassed lands, or the redevelopment of underutilized buildings of structures, within existing built-up areas. IDZ may be approved as either a base zoning district or an overlay zoning district. Standards required in an IDZ district shall apply to either IDZ base zoning or the IDZ overlay district except where otherwise specifically stated. Typically IDZ gives flexibility to parking requirements, lots sizes, and setbacks.
