RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the South Central Community Plan, and is currently designated as Neighborhood Commercial in the future land use component of the plan. The requested IDZ" Infill Development Zone base zoning district with uses permitted in "C-1" Light Commercial District is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The IDZ base zoning districts acts as an appropriate buffer from the freeway into the Single-Family Residential neighborhood.

3. Suitability as Presently Zoned:

The current "C-1" base zoning district is appropriate for the subject property's location because it currently follows the pattern of established development. The requested zoning district of "IDZ" with uses permitted in "C-1" Light Commercial District and Motor Vehicle Sales is also appropriate for the subject property's location.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with land use goals and strategies of the South Central San Antonio Community Plan to encourages a balance of new development and redevelopment of target areas.

6. Size of Tract:

The subject property totals 0.0964 acres in size, which should reasonably accommodate the uses permitted in "IDZ" Infill Development Zone with uses permitted in "C-1" Light Commercial District and Motor Vehicle Sales.

7. Other Factors:

Infill Development Zone (IDZ) provides flexible standards for developments. IDZ is to encourage and facilitate development on vacant, bypassed lands, or the redevelopment of underutilized buildings or structures, within existing built-up areas. IDZ may be approved as either a base zoning district or an overlay zoning district. Standards required in an IDZ district shall apply to either IDZ base zoning or the IDZ overlay district except where otherwise specifically stated. Typically IDZ gives flexibility to parking requirements, lot sizes, and setbacks.
