RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Denial. Zoning Commission recommends Approval (8-2).

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Dignowity Hill Neighborhood Plan and is currently designated as Public/Institutional use in the future land use component of the plan. Requests for the removal of the Historic designations do not change either the existing base zoning district or uses permitted by-right; therefore, a finding of consistency is not required.

2. Adverse Impacts on Neighboring Lands:

Staff has found no evidence of likely adverse impacts on neighboring land in relation to this zoning change request.

3. Suitability as Presently Zoned:

The existing "D" base zoning district is appropriate for the subject property.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed request would fail to meet one of the Plan's goals to enhance the historic character of the neighborhood by removing the Historic Designation of the property.

The subject property is the Merchant's Ice and Cold Storage Company Complex a local historic landmark. In addition it is listed on the National Register of Historic Places in accordance to the office of Historic Preservation.

Historic districts and landmark designation preserve and enhance the city's historic resources pursuant to Goal of the plan.

6. Size of Tract:

The subject property is 3.82 acres in size, which accommodates the existing development with existing space for parking.

7. Other Factors:

Local historic designation is an important tool which protects historical and community resources from demolition, provides incentives for rehabilitation which spurs economic development, and places design review requirements on the property which ensure quality and compatible construction.

The Office of Historic Preservation staff recommends denial to the removal of the historic zoning overlay from any portion of the subject property.

The Historic Design Review Commission denied the request to remove the designation.
