**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the Lone Star Community Plan and is currently designated as Low Density Mixed Use in the future land use component of the plan. The proposed “IDZ” base zoning district is consistent with the adopted land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff has found no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

**3. Suitability as Presently Zoned:**

The existing “I-2” base zoning district is not suitable as presently zoned for the current surrounding land uses.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective. The proposed development will provide improvements and enhance character, ambiance of mixed use with connection to downtown by transit.

**6. Size of Tract:**

The subject property measures 0.258 of an acre tract and accommodates infill development with limited parking.

**7. Other Factors:**

Infill Development Zone (IDZ) provides flexible standards for developments. IDZ is to encourage and facilitate development on vacant, bypassed lands, or the redevelopment of underutilized buildings or structures, within existing built-up areas. IDZ may be approved as either a base zoning district or an overlay zoning district. Standards required in an IDZ district shall apply to either IDZ base zoning or the IDZ overlay district except where otherwise specifically stated. Typically IDZ gives flexibility to parking requirements, lots sizes, and setbacks.
