LAND USE ANALYSIS:

The applicant requests this plan amendment and associated zoning change in order to construct single-family detached homes at a density of 9 units per acre. The proposed amendment to Suburban Tier will revitalize the area, while promoting growth, and economic development. The proposed amendment to Suburban Tier will complement the existing land use pattern as well as the character of the immediate area.

The subject property is located in an area that is underdeveloped; this development would offer more housing to the community without negatively impacting the surrounding neighborhoods. The Suburban Tier land use classification would support the goals of the Heritage South sector plan, which aims to promote Heritage South as an area of choice for prospective homebuyers.

ALTERNATIVES:

1. Recommend denial of the proposed amendment to the Heritage South Sector Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.

FISCAL IMPACT:

None

RECOMMENDATION:

Staff recommends approval. The proposed amendment to Suburban Tier will further enhance the surrounding area and entice prospective homebuyers to invest within Heritage South.
