1. Consistency:

The property is located within the Stinson Airport Vicinity Land Use Plan, and is currently designated as Low Density Residential in the future land use component of the plan. The requested “R-4” Residential Single-Family base zoning district is consistent with the future land use designation.

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The neighborhood is comprised of a mixture of different housing styles, including manufactured homes; this request is an appropriate fit for the area and is within keeping of the current pattern of development.

3. Suitability as Presently Zoned:

The current “R-4” base zoning district is appropriate for the subject property’s location; the surrounding area is composed of small scale residential uses.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective.

6. Size of Tract:
