RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (10-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the Nogalitos/South Zarzamora Community Plan and is currently designated as Mixed Use in the future land use component of the plan. The requested "C-2" base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff has found no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The subject property is separated by the transportation right-of-way resulting in a minimal impact on the neighboring lands.

3. Suitability as Presently Zoned:

The existing "C-3" base zoning district is consistent with its location and adjacent zoning districts on the major thoroughfares.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The request does not appear to conflict with any public policy objective because the zoning request is consistent with the future land use designation.

6. Size of Tract:

The subject property measures 0.4650 of an acre in size and is fully developed with building structure and parking area.

7. Other Factors:

The purpose of the Specific Use Authorization is to provide for certain uses which, because of their unique

characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but may, under the right set of circumstances and conditions be acceptable in certain specific locations.
