**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff and Zoning Commission (11-0) recommend Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is currently not located within any adopted land use plan and has no land use classification. Therefore a finding of consistency is not required. However, staff finds the requested zoning change is consistent with the existing development pattern of multi-family uses.

**2. Adverse Impacts on Neighboring Lands:**

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The requested zoning change for multi-family housing for a duplex, blends in with the surrounding residentially zoned properties of the area that include duplexes and multi-family housing.

**3. Suitability as Presently Zoned:**

The current “O-1” base zoning district is not appropriate for the subject property’s location. The requested multi-family zoning for a duplex is more appropriate for the area. The surrounding properties to the west, south, and east are all zoned multi-family.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare. The surrounding land uses are all multi-family properties. The requested zoning change to allow for a multi-family housing for a duplex will fit in with the surrounding land uses.

**5. Public Policy:**

The rezoning request does not appear to conflict with any public policy objective.

**6. Size of Tract:**

The subject property totals 0.2680 acres in size, which should reasonably accommodate the uses permitted in “MF-33” Multi-Family District.

**7. Other Factors:**

None.
