ISSUE:

Comprehensive Plan

Comprehensive Plan Component: Highlands Community Plan

Plan Adoption Date: April 4, 2002

Update History: December 6, 2007

Plan Goals: Improve the current variety of goods, services and employment available within the community by creating an environment conducive to commercial prosperity and encouraging new businesses to locate in the area.

Comprehensive Land Use Categories

Land Use Category: Low Density Residential

Description of Land Use Category: Low-density residential uses include single-family houses on individual lots. All off-street parking and vehicle use areas adjacent to residential uses require buffer landscaping, and lighting and signage controls. Certain non-residential activities, such as schools, places of worship and parks, are appropriate within these areas and should be centrally located to provide easy accessibility.

Permitted Zoning Districts: R3, R4, R5, R6, R20

Land Use Category: Community Commercial

Description of Land Use Category: Community Commercial development includes moderate-intensity convenience retail or service uses, generally serving the area community. These uses depend on a greater volume of vehicular traffic. Drive-through establishments are permitted. A mix of uses in the same building or development is allowed. Community Commercial uses are typically located at nodes on arterials at major intersections. Community Commercial uses should incorporate well-defined and accessible entrances, shared internal circulation, limited curb cuts to arterial streets, ample sidewalks, shade trees in parking lots, landscaping on planting strips between parking lot and streets, and well-designed monument signage (no large pole signs). Shared parking is encouraged in order to minimize impervious cover. Community commercial centers should be linked to adjoining land uses with safe, attractive and convenient vehicular and pedestrian access. Appropriate buffering is required if this use abuts a residential use.

Permitted Zoning Districts: NC, C1, O1, C2P, C2

Proximity to Regional Center/Premium Transit Corridor

The subject property is within the Downtown Regional Center and within a half mile of a Premium Transit Corridor.

RECOMMENDATION:

Staff Analysis & Recommendation: Staff and Planning Commission (9-0) recommend Approval.

The applicant requests this Plan Amendment and associated zoning change for expansion of the existing storage facilities. The subject property is landlocked with access from the existing storage facility to the north. The proposed amendment to "Community Commercial" land use will not significantly alter the land use pattern or character of the immediate area as the proposed change supports the Highland Hills Community Plan that improves the current variety of goods, services and employment available within the community by creating an environment conducive to commercial prosperity and encouraging new businesses to locate in the area. The proposed amendment to "Community Commercial" is an appropriate fit that supports the accommodation of growth and development within a limited area.

ALTERNATIVES:

1. Recommend denial of the proposed amendment to the Highlands Community Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.
