A denial of the request will result in the subject property retaining the current base zoning district. FISCAL IMPACT:

None.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

The subject property does not fall within proximity to a Regional Center and is not within proximity to a Premium Transit Corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the Near Northwest Community Plan and is currently designated as “Low Density Residential”. The request for “R-5” base zoning district is consistent with the adopted future land use plan and the Conditional Use request for a Professional Office is consistent with the existing land use pattern along this corridor.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on the neighboring land in relation to the zoning change request as the base zoning will remain residential and the current property is developed to accommodate an appropriate amount of off street parking for the proposed conditional use for a professional office.

3. Suitability as Presently Zoned:

The current “R-5” base zoning district is appropriate for the surrounding area as it developed with Residential Single-Family dwellings.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

Staff finds the request for zoning supports the Plan Goal 2 for Economic Development to ensure the Near North West Community’s corridors are filled with a mix of uses including professional offices, residences and busy shops.

6. Size of Tract:

The subject property totals 0.943 acres in size, which should reasonably accommodate the uses permitted in “R-5” with a Conditional Use for a Professional Office.

7. Other Factors:

The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would

be compatible with adjacent land uses under given conditions.

The following conditions shall apply to the operation of nonresidential conditional uses permitted within any residential district, unless otherwise approved by the City Council:

- A. There shall be no exterior display or sign with the exception that a nameplate, not exceeding three (3) square feet in area, may be permitted when attached to the front of the main structure.
- B. No construction features shall be permitted which would place the structure out of character with the surrounding residential neighborhood.
- C. Business hours operation shall not be permitted before 7:00 a.m. or after 6:00 p.m.
