**Current Base Zoning:** "C-2"

**Current Land Uses:** Residential

**Direction:** West

**Current Base Zoning:** "R-4"

**Current Land Uses:** Residential

## **Overlay and Special District Information:**

"AHOD"

All surrounding properties carry the "AHOD" Airport Hazard Overlay District, due to their proximity to an airport or approach path. The "AHOD" does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

**Traffic Impact:** A Traffic Impact Analysis (TIA) is required.

**Parking Information:** 1 per unit.

**ISSUE:**

None.

**ALTERNATIVES:**

Denial of the requested zoning change would result in the subject properties retaining the present zoning district designations.

**FISCAL IMPACT:**

None.

**Proximity to Regional Center/Premium Transit Corridor**

The subject property is within ½ a mile of the Downtown and Midtown Regional Center.

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Denial.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The property is located within the Near Northwest Community Plan, and is currently designated as “Urban Low Density Residential” in the future land use component of the plan. The requested “R-4” base zoning district is consistent with the future land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff finds evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. There are presently only one-family or two-family dwellings in the area. The addition of another unit would create a triplex, which introduces more density to an area that consists of a maximum of up to two residential units.

**3. Suitability as Presently Zoned:**

The current “R-4” Residential Single-Family is an appropriate zoning for the property and surrounding area. The proposed rezoning maintains the base zoning district but would allow more density than what is present in the existing community.

**4. Health, Safety and Welfare:**

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The rezoning appears to conflict with the land use goals and strategies of the Near Northwest Community Plan. The proposed rezoning is out of character with the existing community.

Goals:

Objective 3.4: Housing Development Encourage new housing development that is compatible with the community’s character.

**6. Size of Tract:**

The subject property is 0.1698, which adequately supports residential development.

**7. Other Factors:**

The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.
