"GC-1"

The Hill Country Gateway Corridor District ("GC-1") provides site development standards for properties within 1,000 feet of Interstate 10 between UTSA Blvd and the northern City Limits. The standards primarily address building placement, landscaping, building materials and signage to promote a coordinated development scheme for the Corridor. A zoning review is performed by the Zoning Section of the Development Services Department.

"MLOD-1"

All surrounding properties carry the "MLOD-1" Military Lighting Overlay District, due to their proximity to Camp Bullis. The "MLOD-1" does not restrict permitted uses but does regulate outdoor lighting in an effort to minimize night-time light pollution and its effects on operations at the military installation.

"AHOD"

All surrounding properties carry the "AHOD" Airport Hazard Overlay District, due to their proximity to an airport or approach path. The "AHOD" does not restrict permitted uses but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (10-0) recommend Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval

criteria below.

1. Consistency:

The subject property is located within the North Sector Plan and is currently designated as “Country Tier” in the future land use component of the plan. The requested “C-2” base zoning district is not consistent with the future land use designation. The applicant has requested a Plan Amendment to “Suburban Tier”. Staff and Planning Commission recommend Approval.

2. Adverse Impacts on Neighboring Lands:

Staff did not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. There is existing “C-3” General Commercial to the south and existing “C-1” Light Commercial to the east. The proposed “C-2” Commercial is consistent and compatible with the surrounding zoning.

3. Suitability as Presently Zoned:

The current “R-20” Single Family Residential is appropriate for the property and surrounding area. The requested “C-2 CD” Commercial District with Conditional Use for a Cabinet Shop is appropriate to the area and would allow the existing cabinet shop business to the south to expand.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the North Sector Plan:

Plan Goals:

- Goal ED-1 Compatible economic development along major transportation routes and existing activity centers that do not interfere with the mission of Camp Bullis
 - ED-1.1 Continue to locate higher density residential and compatible employment uses near the intersections of IH-10/Loop 1604
 - ED-1.3 Continue to maintain and revitalize the North Sector to retain and expand vibrant retail and commercial uses within the IH-10, IH-35, Loop 410, and Loop 1604 corridors and/or centers

6. Size of Tract:

The subject property is 8.566 acres, which could reasonably accommodate commercial uses a cabinet shop.

7. Other Factors:

The subject property is located within the Camp Bullis Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding, JB SA was notified of the proposed request. The Military has indicated that there are no objections to this request.

The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.
