**2. Adverse Impacts on Neighboring Lands:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

**3. Suitability as Presently Zoned:**

Although the subject property’s current “C-2” base zoning is consistent with zoning in the surrounding area, the requested “C-2 S” Commercial District with a Specific Use Authorization for a Carwash is within the range of commercial uses encouraged by the Suburban Tier of the Heritage South Sector Plan.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective.

**6. Size of Tract:**

The subject property is 0.62 of an acre in size, which should be able to reasonably accommodate the proposed carwash.

**7. Other Factors:**

The purpose of the Specific Use Authorization is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but which may, under the right set of circumstances and conditions be acceptable in certain specific locations.
