**LAND USE ANALYSIS:**

**SECTOR PLAN CRITERIA FOR REVIEW:**

According to the Heritage South Sector Plan, plan amendments should only be considered after careful review of various factors and a public hearing by the Planning Commission and City Council. These factors should include, but may not be limited to, the following items:

**The recommended land use pattern identified in the Heritage South Sector Land Use Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.**

The subject property is an unincorporated area but within the city's ETJ. There is no zoning or land use authority within the ETJ or County. The property was excluded from a recent City South annexation area in early 2014 due to the Non-Annexation Agreement, however, due to the change in use, the property is under consideration for annexation for Limited Purposes. Annexation for Limited Purposes extends land use regulations, zoning and additional municipal codes related to building and development. The subject property is currently under development, as an office/warehouse with manufacturing /fabrication uses. The proposed amendment will accommodate the development under construction and is in keeping with the surrounding area uses near the subject property and creates an appropriate site for the proposed development. The proposed amendment is appropriate for the respective area due to its location along a Major Thoroughfare.

**The amendment must constitute an overall improvement to the Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time. The amendment must uphold the vision for the future of the Heritage South Sector Plan.**

The proposed amendment will provide additional opportunities for individuals to develop these properties for non-residential uses in locations that do not interfere with residential uses. The proposed amendments support this vision by expanding the potential uses of the subject property while recognizing and respecting the surrounding existing uses.

The amendment will not adversely impact a portion of, or the entire Planning Area by;

- a. Significantly altering acceptable existing land use patterns, especially in established neighborhoods.**
- b. Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.**
- c. Creating activities that are not compatible with adjacent neighboring uses.**
- d. Significantly alter recreational amenities such as open space, parks, and trails.**

The land use in this area is a mix of rural residential, farm and ranch, agricultural and industrial land uses. The proposed amendment will not significantly alter acceptable land use patterns. The amendment will not adversely affect the existing character of the immediate area. Rather, the amendment acknowledges the existing land uses and will create a land use that supports compatible activities.

**ISSUE:**

The proposed zoning is not consistent with the future land use plan and requires that the applicant request a plan amendment.

**ALTERNATIVES:**

No action will maintain the current future land use classification of Rural Estate Tier.

**FISCAL IMPACT:**

None. A Comprehensive Master Plan Amendment carries no specific financial commitment or immediate action by the City or partnering agencies.

**DEPARTMENT RECOMMENDATION:**

The subject property is in an unincorporated area but within the city's ETJ. The proposed amendment for a Specialized Center is appropriate for the respective area due to its location along a Major Thoroughfare. Specialized Center is suitable for the property location as recommended by the Heritage South Sector Plan, which recommends providing seeds of economic development and growth while preserving and respecting the history, values, and natural resources of the area.
