None.

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff and Zoning Commission (9-0) recommend Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the North Central Neighborhoods Community Plan and is currently designated as High Density Residential in the future land use component of the plan. The requested "RM-4" base zoning district is consistent with the adopted land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff finds no evidence of adverse impacts on neighboring lands in relation to this zoning change request.

**3. Suitability as Presently Zoned:**

The current "R-4" base zoning district is not consistent with the High Density Residential land use designation.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The rezoning request does not appear to conflict with any public policy objective.

**6. Size of Tract:** The size of the property totals 0.1722 acres and the size will serve to limit the scale and intensity of any future residential use.

**7. Other Factors:**

According to Section 35-310.06 (a) (1) of the Unified Land Development Code, when a single residential lot is rezoned to “RM-4”, “RM-5” or “RM-6”, the maximum density requirements (units per acre) of Table 310-1 may be exceeded provided:

- a. The minimum lot size for the district is met, and
- b. The maximum number of dwellings is limited to two (2) units for RM-6, three (3) units for RM-5, and four (4) units for RM-4.

The subject property meets the minimum lot size requirement and will not exceed four units.
