BACKGROUND INFORMATION:

The mission of the Mayor's Fitness Council (MFC) is to lead San Antonio to be one of the healthiest and most active communities in the nation in which residents, groups and organizations work collaboratively to achieve targeted health and fitness goals. The Mayor's Fitness Council is divided into several committees that work together to achieve these goals. The Active Living and Nutrition Committees are advisory groups that provide evidence based strategies in active living and healthy eating, which are messaged and promoted in the following sectors: Community, Healthcare, Healthy Schools, and Worksite Wellness. The Policy Committee works to advance health and fitness-related policies in all areas and the Media and Promotions and Development Committees work to support and develop the Mayor's Fitness Council message and partnership growth.

Through this grant, Metro Health will work with the MFC and the Robert Wood Johnson Foundation (RWJF) in order to help accelerate community efforts to advance a culture of health through coaching, learning opportunities, and support for activities that help build capacity within the community. Potential activities include:

- Assessing and identifying additional evaluation measures for existing community health initiatives;
- Conducting strategic planning with the MFC Executive Committee and workgroups;
- Developing a collective impact model for the MFC;
- Utilizing RWJF staff to provide technical assistance to workgroups and community partners; and
- Developing an Action Plan to identify further actions or needs for the community related to SA2020 health and fitness indicators.
