BACKGROUND INFORMATION:

Project Background

Under the voter approved 2012-2017 Bond Program, \$87.15 million was allocated for Parks, Recreation and Open Space Improvements. The Bond Program funds will be used on various capital improvement projects to address community infrastructure needs and improve the overall quality of life in San Antonio. As part of that program, funds in the total amount of \$200,000.00 was approved for park improvements at Lee's Creek Park,

located in Council District 7. The balance of the Project funds approved by voters will be used for design services, environmental services, advertising and project management, with any funds remaining to be realized as bond savings.

Two separate public input meetings were held in November 2013 and August 2014 to gather feedback for the Lee's Creek Park Project. As a result of the community input and as dictated by the Bond Program language, Lee's Creek Park improvements will provide for the construction of an outdoor instructional area to include site grading, paving, seating and picnic units. Project construction is anticipated to begin in April 2015 and estimated to be completed by July 2015.
