Property Details

Property History: The property is zoned “I-1 AHOD” General Industrial Airport Hazard Overlay District. The current “I-1” base zoning district resulted from the zoning district conversion that accompanied the adoption of the 2001 Unified Development Code (Ordinance 93881, dated May 3, 2001); this “I-1” base zoning district converted from the previous “I-1” Light Industry District, which was established by ordinance 49600, dated July 20, 1978.

Topography: None.

ISSUE:

None.

ALTERNATIVES:

Denial of the zone change request would result in the subject property retaining its current “I-1” General Industrial base zoning district.

FISCAL IMPACT:

None.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the San Antonio International Airport Vicinity Plan and is currently designated as Light Industrial in the land use component of the plan. The requested “C-3” General Commercial base zoning district is consistent with the adopted land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff has not found any indication of likely adverse impacts on neighboring lands in relation to this zoning change request. The use, which has existed with non-conforming zoning for years, is consistent with the established development pattern of the surrounding area.

3. Suitability as Presently Zoned:

The existing “I-1” General Industrial base zoning district is appropriate for the surrounding area. Currently, a hotel is already developed on site and is considered legal, non-conforming use of the property.

4. Health, Safety and Welfare:

Staff has not found any indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

As the request is consistent with the San Antonio International Airport Vicinity Plan, the request does not appear to be in conflict with any public policy.

6. Size of Tract:

The 4.341 acre parcel of land is of sufficient size for the existing development.

7. Other Factors:

None.
