None.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (8-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the Northwest Community Plan and is currently designated as Low Density Residential in the future land use component of the Plan. The requested “R-4” base district is consistent with the future land use designation. Although the Major Thoroughfare Plan discourages residential development on major thoroughfares, the proposed use can be accommodated with a Conditional Use for an Assistant Living Facility.

2. Adverse Impacts on Neighboring Lands:

Staff has found no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the neighborhood.

3. Suitability as Presently Zoned:

The existing “R-4” base zoning district is not appropriate for the subject property base on its location on a major thoroughfare. The surrounding area consists of mostly neighborhood commercial uses along Guilbeau Road.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective.

6. Size of Tract:

The subject property is 2.19 acres in size, which accommodates the proposed development with adequate space for parking.

7. Other Factors:

None.
