**LAND USE ANALYSIS:**

**Sector Plan Criteria for review:**

- The recommended land use pattern identified in the North Sector Land Use Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.
- The amendment must constitute an overall improvement to the Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the future of the North Sector Plan.

The proposed Plan Amendment to General Urban Tier will encourage compatible growth patterns and transitions of higher density residential along principal arterials (Highway Interstate 10).

The subject property is vacant and undeveloped. The change of land use to General Urban Tier provides for consistent and compatible development of vacant infill and underutilized parcels as prescribed by in the North Sector Land Use Plan. The applicant is proposing to develop an apartment complex on the property. The property is part of a larger tract already zoned multi-family. Therefore, the proposed Amendment to General Urban Tier use will not significantly alter the land use pattern or character of the immediate area as the proposed change is compatible with the already-existing surrounding pattern of development.

**The amendment will not adversely impact a portion of, or the entire Planning Area by;**

- Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
- Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
- Creating activities that are not compatible with adjacent neighboring uses, and, particularly, the mission of Camp Bullis.
- Significantly alter recreational amenities such as open space, parks, and trails.

The General Urban Tier use classification will contribute toward the North Sector Plan's vision of compatibility by not significantly altering the existing development pattern. Additionally, the proposed change is not anticipated to pose any negative impact on military operations or adversely affect any recreational amenities in the area.

**ALTERNATIVES:**

1. Recommend denial of the proposed amendment to North Sector Plan.
2. Make an alternate recommendation.
3. Defer the application to a future date.

**FISCAL IMPACT:**

None.

**RECOMMENDATION:** Staff recommends approval. The development of the subject property with the General Urban Tier use classification is compatible with the existing development pattern.
