RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the North Sector and is currently designated as Mixed Use Center in the land use component of the plan. The requested “RM-4” base zoning district is not consistent with the adopted land use designation. The applicant has applied for a Plan Amendment to change the land use designation to General Urban Tier, which allows “RM-4.” Staff and Planning Commission recommended approval of the Plan Amendment.

2. Adverse Impacts on Neighboring Lands:

Staff finds that the proposed zoning change poses no adverse impacts to neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.

3. Suitability as Presently Zoned:

The existing “O-2” base zoning district is not consistent for the surrounding area.

4. Health, Safety and Welfare:

Staff has not found any evidence of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

Staff finds that the proposed zoning change imposes no adverse effect on any public policy objective.

6. Size of Tract:

The 1.981 acre site is of sufficient size to accommodate the proposed development.

7. Other Factors:

None.
