### **Land Use Analysis**

#### **Sector Plan Criteria for review:**

- The recommended land use pattern identified in the North Sector Land Use Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.
- The amendment must constitute an overall improvement to the Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the North Sector Plan.

The subject property is currently used for a rural single-family residence. The purpose for the requested plan amendment is to allow for a single-family development on the undeveloped tract of land. The subject property is within the proposed 2015 Annexation area and the applicant is requesting to amend the plan prior to the annexation and subsequent zoning of the property in order to allow for the development. The current land use designation, Country Tier, does not permit the desired “R-6” zoning within its boundaries. The request will not substantially nor permanently injure the property rights on the owner(s) of all real property affected by the proposed change. The amendment upholds the vision for the future of the North Sector Plan as it supports

developing a compatible land use fabric that preserves military readiness, as well as recognizes and respects private property rights and integrates sustainable development patterns.

**The amendment will not adversely impact a portion of, or the entire Planning Area by:**

- Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
- Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
- Creating activities that are not compatible with adjacent neighboring uses, and, particularly, the mission of Camp Bullis.
- Significantly alter recreational amenities such as open space, parks, and trails.

There is an existing single-family residential development within less than a mile of the subject property. The Plan Amendment will ensure compatibility of surrounding lands and future development. The Suburban Tier designation is appropriate for the proposed development on the subject property.

**ALTERNATIVES:**

1. Recommend denial of the proposed amendment to the North Sector Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.

**FISCAL IMPACT:**

None.

**RECOMMENDATION:**

Staff recommends approval. The proposed amendment to the Suburban Tier use classification is compatible with the existing development pattern.
