RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Arena/Eastside District Plan and is designated as Medium Density Residential in the future land use plan. The base zoning request of “IDZ” with uses permitted to allow eighteen units per acre is consistent with future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

3. Suitability as Presently Zoned:

The subject property’s current zoning designation is suitable; however the proposed request will enable infill development and provide a suitable buffer between the industrial uses to the west, north and east of the property to the single-family residential uses to the south and further to the east.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

6. Size of Tract:

The subject property totals 0.459 acres in size, which should reasonably accommodate the use requested.

7. Other Factors:

None.
