## **LAND USE ANALYSIS:**

### **Sector Plan Criteria for review:**

- The recommended land use pattern identified in the North Sector Land Use Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.
- The amendment must constitute an overall improvement to the Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the future of the North Sector Plan.

The current Suburban Tier land use allows up multi-family residential up to eighteen (18) units per acre, but does not currently allow twenty-five (25) units per acre. The applicant has requested the land use amendment to allow for a slightly denser multi-family development. The subject property is located at the intersection of N US Hwy 281 and Overlook Parkway and is a suitable site for such development. The subject property is currently vacant. The proposed amendment to General Urban Tier will provide consistency with the surrounding areas and allow the applicant to have a mix of commercial and multi-family uses. During the zoning process appropriate buffers, setbacks, and building placement should be considered. The proposed land use upholds the vision of the North Sector Plan by providing diverse quality housing and developing a compatible land use fabric that preserves military readiness, recognizes and respects private property rights, and integrates sustainable development patterns.

**The amendment will not adversely impact a portion of, or the entire Planning Area by;**

- Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
- Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
- Creating activities that are not compatible with adjacent neighboring uses, and, particularly, the mission of Camp Bullis.
- Significantly alter recreational amenities such as open space, parks, and trails.

There is a single-family residential neighborhood adjacent to the subject property. The proposed General Urban Tier is compatible with the surrounding land use and neighborhoods. The property is currently vacant and the proposed land use will not have adverse impact on the existing character. The General Urban Tier land use classification would support the goals of the North Sector of protecting the existing residential neighborhoods and discouraging developments of incompatible uses within the Camp Bullis Influence Area. The subject property is not within close proximity to recreational facilities and will not have negative impact on nearby open spaces, parks, or trails.

**ALTERNATIVES:**

1. Recommend denial of the proposed amendment to the North Sector Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.

**FISCAL IMPACT:**

None.

**RECOMMENDATION:**

Staff recommends Approval. The proposed amendment to General Urban Tier land use will not significantly alter the land use pattern or character of the immediate area as the proposed change is compatible with the already-existing surrounding pattern of development.

**PLANNING COMMISSION RECOMMENDATION:** Approval (9-0).

**ZONING COMMISSION SUPPLEMENTAL INFORMATION:** Not Applicable.
