None.

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.0

**1. Consistency:**

The subject property is located within the West/Southwest Sector Plan and is currently designated as General Urban Tier in the future land use component of the plan. The requested “C-2” base zoning district is consistent with the adopted land use designation.

The West/Southwest Sector Plan seeks to ensure the development of new business locations and employment centers are compatible with the Plan. The development of a Motor Vehicle Sales (Full Service) will provide jobs to the area and needed car repair services to the surrounding area.

**2. Adverse Impacts on Neighboring Lands:**

Staff has found no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

**3. Suitability as Presently Zoned:**

The existing “I-1” base zoning district is not appropriate for the subject property and is not consistent with the current land use designation.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective. The West/Southwest Sector Plan seeks to ensure the development of new business locations and employment centers are compatible with the Plan. The development of a Motor Vehicle Sales (Full Service) will provide jobs to the area and needed car repair services to the surrounding area.

**6. Size of Tract:**

The subject property measures 1.522 of an acre tract which is sufficient to accommodate the proposed conditional land use development and parking requirements.

**7. Other Factors:**

The conditional use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.

Staff recommends the following conditions if approved:

1. A six-foot tall, solid screen fence shall be maintained where the subject property abuts residential zoning or uses.
2. A 15-foot, Type B landscape buffer shall be required along the rear and side property line where the property abuts residential zoning or uses.
3. All on-site lighting shall be directed onto the site and point away from any residential zoning or uses using 90-degree or less cut-off fixtures.
4. No outdoor speaker or amplification systems shall be permitted.
