Property History: The subject property is located within the original city limits as established in 1938, and was originally zoned "D" Apartment District. Upon adoption of the 2001 Unified Development Code, the previous base zoning district converted to the current "MF-33" Multi-Family District. The property currently houses The Children's Shelter.

Topography: The property does not include any abnormal physical features such as slope or inclusion in a floodplain.

the Federal Aviation Administration.

Properties to the north, east, and south east of the subject property are located within the King William Historic District. RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (8-2) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Downtown Neighborhood Plan and is currently designated as Residential in the future land use component of the plan. The Residential designation for this plan entails single-family, multi-family and mixed use land uses. The requested "IDZ" and "RM-4" base zoning districts are consistent with Residential land use designation. The property currently is occupied by The Children's Shelter and redevelopment of the subject properties would increase density and housing opportunities for the neighborhood.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

3. Suitability as Presently Zoned:

The current “MF-33” base zoning district is appropriate for the subject property’s location in an inner city neighborhood near South Alamo Street, a Secondary Arterial Type B. However, the property does not presently feature multi-family dwellings available for public use. Therefore, the proposed zoning will provide more economic development and housing prospects.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with any public policy objective.

6. Size of Tract:

The subject property totals 0.64 of an acre in size, which should reasonably accommodate the uses permitted in “IDZ” and “RM-4”.

7. Other Factors:

Redevelopment of the subject properties shall be consistent with the character of the surrounding neighborhood.
