**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval, pending Plan Amendment.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The property is located within the Lone Star Community Plan and is designated as Low Density Residential. The requested "IDZ" base zoning district is not consistent with the adopted land use designation. The applicant has requested an associated Plan Amendment to Low Density Mixed Use. Staff and Planning Commission recommend approval.

**2. Adverse Impacts on Neighboring Lands:**

Staff has found no evidence of likely adverse impacts on surrounding properties in relation to this zoning request. The proposed zoning is consistent with surrounding properties as the area currently has properties composed of duplexes, quadplexes, and multiple dwellings per lot.

**3. Suitability as Presently Zoned:**

The existing "R-6" zoning district is appropriate for the subject property and surrounding areas. However, the proposed “IDZ” zoning will provide support for the development of additional single-family uses within the Lone Star community and will not have any negative effects on the future development of adjacent properties. The requested zoning is suitable with the current development within the project area as there are several new and existing infill and high density developments.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective. The zoning request fulfills the goals of the Lone Star Neighborhood Plan, by rezoning to provide for a range of housing types including single-family

detached, townhouses, senior housing, live/ work units, and apartments. The request also fulfills the goal of rehabilitating the existing housing stock that contributes to maintaining and in some cases increasing property values as well as health, safety and well being of the neighborhood.

**6. Size of Tract:**

The subject property is 0.293 acres in size, which accommodates the proposed development for five (5) single-family dwelling units with adequate space for parking.

**7. Other Factors:**

None.
