RECOMMENDATION:
Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Downtown Neighborhood Plan and is currently designated as “Low Density Residential” in the future land use plan. The requested “IDZ” Infill Development Zone District with uses permitted in “O-1” Office District is not consistent with the current land use classification. The applicant has submitted a Plan Amendment request to amend the future land use designation to “Low Density Mixed Use.” Staff and Planning Commission recommended approval of the Plan Amendment.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

3. Suitability as Presently Zoned:

The current zoning of “R-4” is suitable for the property; however the property is very close to the North Colorado Street corridor where a boutique, television repair shop, and snack shop are located. The proposed professional office will be consistent with surrounding uses and will serve as a buffer between more intense commercial uses to the west of the property and the single-family residences located to the east of the property.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The requested zoning is appropriate and supports the Downtown Neighborhood Plan's objective of developing downtown businesses and promoting a healthy, diversified economic base.

6. Size of Tract:

The subject property is of sufficient size to accommodate the proposed professional office use.

7. Other Factors:

None.
